Intel News:

Intel® Storage Solutions Webinar

Your customers' storage needs are ever-expanding...and so is the market for storage products! Learn how Intel® Server Products and storage configuration guides from the Intel® Enabled Server Acceleration Alliance (Intel® ESAA) can help you get to market faster and expand your product offerings. Join us on Tuesday, March 30th at 10 AM PT for an informative webinar led by Intel product experts. View all ESAA webinars: <http://www.esaa-members.com/index.php/pages/webinars>

Intel® Flex+ Promotion: Get Points for Downloading Recipes!

Resellers: earn 10 Intel® Flex+ Points for each recipe you download (limit 2 per reseller), plus a further 20 Intel® Flex+ Points for submitting a pass-through system certification request (limit 1 per reseller)! Promotion may not be available in all geographies. Visit <http://www.intel.com/reseller> for more information on this and other available Intel Flex+ promotions.

Show Your Competitive Edge with New "Intel® Server Board Inside" Badges!

"Intel® Server Board inside" and "Intel® Workstation Board inside" badges are now approved for use by the Intel field and resellers. Download them today: <http://www3.intel.com/cd/channel/distributor/asmo-na/eng/sales/267414.htm?&AppID=100&Lang=eng>

Resellers can also order table top signs and stickers featuring these new badges. Order today: <https://secure.hibbertgroup.com/intel/spm?programId=3>

Westmere Transitions Made Easy

Transitioning your existing inventory of Xeon® processor 5500 series server boards to support the new Intel® Xeon® processor 5600 series (codename Westmere-EP) is easy, and there are so many options available when combined with Intel® Server Products. Watch this short series of seven 56 second videos to learn the benefits of adding 10 Gbit Ethernet or an I/O Expansion Module to a motherboard, or how Remote Management Module 3 can help reduce costs to manage your IT environment. Watch and learn now: http://www3.intel.com/cd/channel/reseller/asmo-na/eng/products/server/361037.htm?iid=SRVasmonaeng_body-videosandanimations

Upgrade Your Server Lineup — Without a Redesign!

Get up to 60 percent better performance from existing systems — just by adding a new processor! All Intel® Server Boards based on the Intel® Xeon® Processor 5500 series are drop-in ready for upgrade to the Intel® Xeon® Processor 5600 Series. Other new features available include gold-efficient power supplies, Intel® On-Demand Redundant Power Technology, and support for low-voltage DDR3 memory. Learn more: http://cache-www.intel.com/cd/00/00/44/28/442823_442823.pdf

Get "Eco-Smart" with Intel® Server Products

Intel® Server and Workstation Boards based on the new Intel® Xeon® processor 5600 series feature new platform-level energy efficiencies including Intel® On Demand Redundant Power Technology, PMBus protocol, and support for low voltage processor and DDR3 memory. Being "eco-smart" has never been so easy! Learn more: http://pccache-www.intel.com/cd/00/00/44/28/442822_442822.pdf

Get Your Kicks on Route 56 with Intel® Server Products

Intel® Authorized Distributors will be offering up to a \$56 Instant Rebate on the purchase of qualifying Intel® Server Boards/Systems, Intel® RAID, and Intel® Adapters. View all server promos: <http://www3.intel.com/cd/channel/reseller/asmo-na/eng/promotion/306999.htm>

New Case Study: Intel® Server Products and Kolor

Kolor, a leader in image stitching software, wanted to showcase their capabilities by creating one of the largest stitched panoramic images in the world. Their deployment included the Intel® Server System SR2600UR and 6 SSDs. Learn more:

Coming Soon: Gluster Storage Platform Installation Recipe

Gluster Storage Platform is an open source clustered storage solution. The software is a powerful and flexible storage solution that simplifies the task of managing unstructured file data whether you have a few terabytes of storage or multiple petabytes. You can get started with just a single system configured as a standalone NAS server, and scale from there as needed by adding new storage nodes into your configuration. You can then export the aggregate storage capacity into a single global name space, which multiple clients can access seamlessly. The upcoming recipe will walk you through how to install Gluster Storage Platform. Installation is simple — there are only two screens to take care of, disk selection and network configuration, and the whole process takes less than 10 minutes to complete. Learn more:

Citrix Introduces XenApp 6.0

Citrix is pleased to announce that Citrix XenApp 6 for Windows Server 2008 R2 will be available for electronic download on March 24, 2010. Hear why XenApp 6 is the de facto standard in application delivery to any desktop: <http://www.open-e.com/products/>

Astaro Honored by SC Magazine with Two Awards

SC Magazine recently recognized the Astaro Security Gateway with two separate awards. The first is a five star rating of the Astaro Security Gateway 7.5's email security application:

<http://www.scmagazineus.com/astaro-security-gateway-75/review/3104/> This review states that Astaro's appliance is very responsive and strong, containing all the necessary security and content management features required for email security. It also states that the Astaro Security Gateway is a great product at a highly competitive price. *SC Magazine* hosted their annual awards banquet during RSA where they recognized security vendors in various categories. Astaro was recognized as the Best SME Security Solution: <http://www.scmagazineus.com/best-sme-security-solution/article/164147/>
